Lightroom Desktop Preset CREAMBERRY: The 'Creamberry' pre-set is light and creamy, and will help your reds shine! This is the perfect choice for those who are a fan of warm and creamy tones. It'll add a bright luminosity to your photographs.

Includes: 1 Lrtemplate file "Creamberry"

- This preset can be used with Adobe Lightroom/Lightroom Classic on a desktop.
- The best results are when they are applied to high-quality, well-lit photos. I typically shoot using my iPhone X and these preset work well! Be sure to adjust your exposure as necessary.
- It is compatible with Adobe Lightroom
