What is Masking in Premiere Pro BASICS, EFFECTS and TRANSITIONS

The video course "Masking in Premiere Pro BASICS, EFFECTS and TRANSITIONS" by Erik Aleynikov likely focuses on teaching users how to use masking techniques in Adobe Premiere Pro, a popular video editing software. Masking is a fundamental concept in video editing that involves selectively revealing or hiding parts of a video clip or layer.

In a course like "Masking in Premiere Pro BASICS, EFFECTS, and TRANSITIONS," you can expect to learn the fundamental principles of masking in Premiere Pro, including how to create and manipulate masks, adjust mask properties, and use them for basic effects and transitions. The course may also delve into more advanced techniques for creative and practical applications of masking in video editing.
