As always, we offer 100% authentic vocal samples that were recorded at our own studio by the 91Vocals team using top high-end microphones as well as analog hardware. The best performances from the sessions recorded in four different tempos and keys were carefully selected, recorded, and tuned to produce the most premium vocals. Professional vocal engineer and record producer Charlie McClean mixed and processed the vocals with a meticulous focus on the smallest detail. She also contributed her expertise in editing and tuning vocals.

To ensure maximum flexibility the vocal hooks come supplied 'dry', with pure processing and 'wet', taking maximum advantage of our customized vocal chain with clean EQs, acoustic compression as well as delay, reverb Harmonized stacks, vocal doubling, and stereo broadening. We encourage you to cut and chop, change the pitch, and chop!

Each loop is meticulously identified and tempo-locked. These royalty-free loops are great to incorporate into your beats or to use as an inspiration for your next smash.
