- **65MM INSPIRED** - Film-inspired styles that mimic large-format motion stock's breathtaking detail, depth, and color reproduction.
- **PRODUCTION VALUE** - Each LUT combines color balance and contrast ratios. Each LUT is specifically designed to give you an immersive, high-production quality look.
- **MOOD & TONE** - Simulates analog color techniques and the manual color process. It is ideal for any project that requires an IMAX-style contemporary 65mm appearance.
