Total Video Converter Pro v5.2.0 for macOS

2025-01-02 10:33:27

is a powerful, all-in-one video solution designed for Mac users, making it easy to convert, edit, and manage media files. This software supports almost any video and audio format, letting you convert between formats at ultra-fast speeds. Whether you want to prepare videos for Apple devices, gaming consoles, or mobile phones, Total Video Converter Pro has you covered, with full compatibility across a wide range of devices, including Apple TV, iPad, iPhone, Xbox, PlayStation, and more.

In addition to converting, this toolkit offers an intuitive interface for editing, trimming, and enhancing videos, making it perfect for both quick edits and more detailed projects. You can burn videos to DVD, combine clips, add music, and even export GIFs. **Total Video Converter Pro** supports direct import from DV cameras, helping users easily create projects ready for platforms like iMovie and Final Cut Pro. With various video effects available, you can customize your content to achieve professional-quality results.

Key Features of **Total Video Converter Pro** :

1. **High-Speed Conversion:** Convert video and audio formats for various devices at up to 30X faster speeds.
2. **DVD Burning:** Burn HD or SD videos directly to DVD in NTSC or PAL formats.
3. **Editing Tools:** An interactive timeline lets you cut, trim, and enhance videos with precision.
4. **Clip Cutter:** Cut videos with frame accuracy to create custom segments.
5. **Auto DV Import:** Import DV footage (AVCHD, TOD, MOD) easily for editing.
6. **Add Background Music:** Add soundtracks to your videos to enhance their impact.
7. **Video Combination:** Merge multiple clips into a single, seamless video.
8. **GIF Export:** Convert sections of videos into GIFs.
9. **Audio and Video Extraction:** Extract lossless video or audio from any media file.
10. **Video Effects:** Apply Flip, Rotate, and more to make your video stand out.
