**Talking Animation Kit (Videohive 51396070):** Unleash the power of dynamic storytelling with this new DaVinci Resolve Template! This macro lets you transform any video or static image into a captivating freeze-frame animation with a speaking character.

- One-click auto timing: time your text automatically, or dive in with manual adjustments.
- Auto lip-sync feature: automatically aligns the mouth movements of your speaking character with the titles, creating a seamless and realistic animation.
- Video tutorial included.
- Customize everything: font, color, brush element, camera shake, stroke, retro pixel effect, and more.
- Works in both the free and studio versions of Resolve.
