Dithering Bitmap Creator - 279739660:

The Dithering Bitmap Creator is a powerful tool designed to evoke the nostalgia of 8-bit visuals from the early days of digital art and gaming.

This product includes a high-quality, 4000x4000 px PSD file with a resolution of 300 dpi.

It features 7 types of dithering for varying intensity and density and offers 9 duotone options, including black and white.

Ideal for creating eye-catching 8-bit projects, this tool is perfect for video game studios, geek-inspired merchandise, album covers, and other early 2000s design ideas.
