GiliSoft SlideShow Maker:

GiliSoft Slideshow Maker is software for creating slideshows from photos and videos. It provides HD slideshows for various special occasions, including weddings, birthdays, and anniversaries. Users can convert photos into slideshows and insert videos; most image formats are supported, including JPG, PNG, TIF, and RAW files.

"GiliSoft SlideShow Maker" Sample:

Moreover, the software includes more than 300 customizable audio two-dimensional and three-dimensional transition effects, filters, and watermarks. Photos can also be optimized. Users can adjust the slideshow's brightness, colour, cropping, and length to match the song's duration.

Slideshow presentations can be shared and exported directly to platforms like YouTube, Facebook, and Google Drive. Mobile devices and DVDs can also be used.
