Aescripts Ae Voice Recorder v1.2:

The Ae Voice Recorder is a simple and user-friendly tool that allows you to record audio directly within After Effects. It offers features like recording voice memos, video voiceovers, and podcasts using your computer's microphone or external audio devices. Designed for ease of use, it lets you record quickly from the timeline with just a click.

Additional functionalities include Speech Text for converting audio layers to text, Subtitle Creation from text or voice layers, Text to Speech in multiple languages, and text translation for subtitle use. It's perfect for voiceovers, scratch tracks, notes, or client comments, providing a streamlined and intuitive recording experience.
