Fujicolor Original v2.0 (Mastin Labs):

The first light and airy appearance.

Fuji 400H: the very first airy and light preset, Fuji 400h is your favorite film stock for family and wedding photographers. Fuji 400h offers organic skin-tones while maintaining vibrant three-dimensional color.

Fuji 400H Blue: An development of Fuji 400H, Fuji 400HB adds blue in the greens to soften the vibrancy of foliage, so providing you stripes that are colored.

Fuji 160NS: Neutral and balanced, Fuji 160NS is your portrait photographer's favorite film stock because of its smooth gradients in the highlights to the slopes and wash skin over an extensive selection of tones.

Fuji 800Z: Pretty in pink, Fuji 800Z attracts magenta into the forefront of these highlights making a dream-like color scape on your pictures.
