

## LabelJoy v6.24.03.29 Light & Basic & Full & Server Editions Multilingual

2024-12-31 13:59:03

**LabelJoy** is a top-tier label printing software designed for businesses, offering a user-friendly interface to effortlessly generate barcodes, QR codes, and various printouts such as labels, envelopes, badges, cards, and letters. With a streamlined three-step process, users can easily create and print custom labels. The software supports the import of data from diverse sources, including Excel, Access, Outlook, CSV, SQL Server, MySQL, and Oracle, ensuring flexibility in data utilization.

Featuring an integrated QR code generator, allows users to create, print, and export QR codes as JPG or PDF files. It supports printing on standard laser or roll printers, offering compatibility with common or customized paper formats. The internal library boasts 11,000 layouts, including well-known brands like Avery, Apli, Herma, and more. The user-friendly interface provides a WYSIWYG experience, displaying paper and label elements exactly as they will be printed.

**LabelJoy** excels as a barcode generator, producing various barcode types such as Code 39, Ean13, ITF14, UPC, and more. The software includes 4,500 high-resolution cliparts for customization. It facilitates the creation of custom product labels, price tags, or barcode labels by importing codes from external data sources. With the ability to export to popular graphic formats and connect to external data sources for dynamic information, **LabelJoy** stands out as a comprehensive solution for label creation and printing needs.
