Learn Adobe Firefly : Experiment with Generative AI Image: In today's landscape, numerous generative AI programs specialize in transforming text into images. Leveraging their extensive experience in creating creative tools, Adobe has introduced Adobe Firefly, a generative AI product offering many services. In this course, we delve into the capabilities of Adobe Firefly, exploring various features and functionalities.

Throughout the course, you will gain hands-on experience and learn:

- Text to Image: Unleash the power of Adobe Firefly and explore its features.
- Generative Fill: Easily add and remove objects for seamless creative control.
- Text Effects: Enhance your designs with captivating text effects.
- Generative Recolor: Transform the color palette of your artwork dynamically.
- Text to Template: Convert text into template designs effortlessly.
- Text to Vector Graphics: Explore the generation of vector graphics from text.

Collaboratively, we will work on completing several projects, and you'll receive valuable tips to maximize your efficiency with Adobe Firefly. Welcome to this course, and let the journey of happy learning begin!
