I'm Carleen. I am a designer of fashion and jewelry who has extensive experience in animation and illustration as well. In this class, I'll demonstrate different ways to create an animation simply by using images or video.

- Choose, stylize, and create the image(s) to be animated using a static image or that is based on a video
- Make an animation that includes or does not include an audio track in Adobe Photoshop, and export the animation as GIF or MP4 format.
- The software you need to use is Adobe Photoshop.
- This animation tutorial is helpful for new and skilled designers.

What is Creating Animations and Exporting in GIF and MP4?

Carleen's animation tutorial offers a fantastic opportunity for individuals interested in creating animations in GIF or MP4 formats, even without prior drawing skills. As an experienced designer in fashion and jewelry, Carleen provides step-by-step layered tutorials using Adobe Photoshop, making the process accessible to all skill levels.
