Each Model was created in the most detailed possible way, accurately representing species used in Corona Renderer, V-Ray Renderer, and FStorm Renderer in 3D Max.

The FBX file format contains all textures ready to be transferred to other programs without game engines.

Our SketchUp file type is compatible with three rendering engines, V-Ray Thea and Enscape, including proxy files and complete Geometry files. SketchUp Files are completely capable of being used with Skatter.

Users can select Blender, Cycles, and Cinema 4D with V-Ray 3.7 and Corona Renderer.

The MESH model requires 3Ds Max 2018 and higher in addition to minimum Corona 3.0, V-Ray 3.6, and Form 1.35. We also offer the complete Forest Pack library for all three renderers.

Rhinoceros 3D format with a minimum of 7.0 version or higher. Fully compatible with Rhino Renderer and minimum V-Ray 5.0, this format is only compatible using V-Ray and Rhino Renderer. For Enscape using Rhino 3D users, please look up the Low Poly Enscape format here.
