Traktrain proudly presents "White Lotus vol 2," a Drill Trap Sample Pack featuring a diverse selection of 310 instrument samples. This pack includes an array of bass, drum, and melody loops, along with captivating FX sounds and one-shots. While it's ideal for crafting Trap beats, it also shines in genres like Drill and Phonk.

Building upon the foundation of the original "White Lotus" pack, this volume embraces slightly darker undertones while boldly pushing the genre's boundaries with innovative musical elements. The drum components offer compressed and synthetic textures reminiscent of techno, resulting in dynamic drum grooves. The robust basslines, spanning various registers, also deliver impactful sub-bass tones. The melodies feature enigmatic oriental instruments such as strings, flutes, and bells, alongside keys and synths, all enriched with tasteful effects. At times, they challenge tonal conventions with arpeggios and double-stops. The loops are thoughtfully labeled with tempo and key information when applicable. Moreover, the pack includes intriguing special effects sounds, perfect for crafting unique soundscapes. Every sound in the loops is also available as individual one-shots, including drums, bass, and melody.
