- **Coppertone:** Soak in the sun-drenched vibes with this desaturated suntan look, perfect for a natural and radiant appearance.
- **Brooklyn:** Prepare for a night out in Brooklyn with this street photography preset. Subtle hints of blues and greens create a muted yet captivating cityscape.
- **Kaleidoscope:** Transform your photograph into a vibrant collage of colors with this preset. Experience a burst of brightness that saturates your image.
- **Blues Clues:** Cast a cool hue across your image with this icy preset, enhancing the blues for a refreshing and calming effect.
- **C-41:** Take a trip back to film processing with this grainy preset. It adds a nostalgic "digital negative" touch, and there's even a "no grain" version for a cleaner look.
- **Hi-C:** Revisit childhood memories with the Hi-C preset. Enjoy a "lava burst" of orange and yellow tones reminiscent of your favorite juice-box beverage.
- **Wet Hot American Summer:** Capture the essence of summer camp with this magenta and teal-tinted preset. Perfect for reshaping your photograph and giving it a summer-ready vibe.
- **Salt Water Taffy:** Stroll on the boardwalk with the Salt Water Taffy preset. Enjoy a matted look with a golden teal finish, capturing the warmth of a day at the shore.
- **Delorean:** Time travels at 88 MPH with the Delorean preset. Transform any color photograph into a black-and-white image with a deep metallic silver finish.
- **THICCC:** Add bold contrast to your flat image with THICCC. This preset brings out vibrant details and adds a touch of intensity.
- **Mel Brooks:** Head down to the ranch with the Mel Brooks preset. It focuses on enhancing skin tones, giving your subject a leathered rustic tan.
- **Tintype:** Journey back to the late 1800s with the Tintype preset. Combining a sepia tone finish with a bronzer effect transports your subject to the Victorian era.
- **Face Enhance (Adaptive Preset):** Say goodbye to manual adjustments. Face Enhance works for you—softening skin, brightening eyes, and more. Choose from "Full Body" or "Eye Enhance" editions.
- **Background Blur (Adaptive Preset):** Transform any busy background into a clean blur with Background Blur. Adjust
