Edit the photos you took while hiking through the jungle or an excellent early morning hike in the mountains. This collection is perfect for any landscape, nature, or travel photographs! Be aware that these presets do not provide a single-click solution. Please make use of them for a start and tweak them later!

They're continuously tested with hundreds of images taken with various camera models, such as Canon, DJI, Sony, Olympus, Nikon, Panasonic, GoPro, and several phones!

The pack comes with a user guide that explains the basics and walks through one of my edits step-by-step!
