Subtitles Pro For Final Cut Pro offers a comprehensive package of titles, including subtitles, captions, song lyrics, and lower thirds, which are easy to customize even for beginners.

How can users set the properties of text and overlays in the overlay design?

They can design their project with the use of "Subtitles Pro For Final Cut Pro".

The package features intuitive tools for duration control, text highlighting, and auto-resizing text boxes, ensuring professional-quality results. Users can adjust text properties and overlays effortlessly, and choose from various in-animations.

"Subtitles Pro For Final Cut Pro" Samples:

The templates are compatible with Final Cut Pro X 10.6.7 and Motion 5.6.5 or newer versions, supporting 4K resolution. The package includes FCP & AM templates, a PDF help document, step-by-step video tutorials, and 24/7 technical support.

Package information

Subtitles Pro for FCP and Motion, last updated and published on 20 February 2024, requires no plugins and is compatible with Apple Motion 5 and Final Cut Pro X.
