How to use presets to edit images?

You can edit your images using "Run Away With Me Presets By Briquelle Kayanne" in Lightroom.

Where can I download the product?

After subscription, You can download it for free from here.

EARLY AND CREAMY With a touch of WARMTH

- One color plus One black and white pre-set (XMP files)
- Desktop presets are only available are available for Lightroom or Lightroom Classic (see below for instructions on how to utilize XMP files with the Lightroom mobile application)
- Presets specifically designed for RAW files

The steps to get your presets set up:

1. You must possess an Adobe account updated to the latest version. (Lightroom or Lightroom Classic 7.3 or later)
2. After your purchase, you'll get an email with the subject line "Run Away With Me Preset Pack By Briquelle Kayanne Photography." If you don't receive this email, be sure to check your promotional inbox because it is possible that they will end up in there instead of in the primary one!
3. Download Presets. This must be done on a laptop or desktop computer. Follow the download links to launch (don't forget to save your presets to your external hard disk to ensure they don't get lost!)

How do I install the .xmp presets in Lightroom (previously known as Lightroom CC):

- Open Lightroom
- you can open any photo within Lightroom to start
- Click 'presets'
- Click the three dots at the top right of the panel for presets and then click 'import presets'.
- Select the presets you want select the presets, then click import. That's it!

How do I install the .xmp prefix to Lightroom Classic:

- Open Lightroom
- Select 'develop module' in the upper right corner. make sure that a photo is open on the screen
- Click 'file'
- Click 'import profile develop profiles and presets'
- Select your saved presets and select import!

What is Run Away With Me Presets?

Presets are pre-defined settings for photo editing software that allows users to apply specific looks or styles to their images

with a single click. These presets can be used in programs like Adobe Lightroom or other similar photo editing applications.

The "Run Away With Me Presets" likely contain a set of preset adjustments that are designed to give photos a particular aesthetic or mood. This could include adjustments to color tones, contrast, saturation, and more. The name "Run Away With Me" suggests a romantic or dreamy vibe, which might be reflected in the style of the presets.
