benj™ - Foundations – Powerful Base Adjustments (xmp)

2025-02-10 16:44:17　　label 我要反馈　　下载页面

Foundations™ is really a bunch of strong base alterations that I Use to place my foundation tones. It's designed to make a foundation look/mood for your image. From there, tweaking to place your style is just as easy as correcting a few sliders.

Why strong? However far you fix the colors, in case The tones do not correct with them, then the outcomes might not be as pleasing. Try out these tones alterations whom I've been using for most of my edits.
