### FOCUS

Frequently my"go-to" preset to the B&W studio work. A perfect mix of shadow and highlight for low important portraits.

### CHARCOAL

Designed to be used outside with muddy light, this Preset creates superbly soft adjustments while keeping full comparison.

### ULTIMATE CONTRAST

Perfect for pictures taken with tough lighting, outside or in Studio, using the ideal balance of shadow and highlight detail.

I made this preset on 5 Years Back, and each color Picture I have shot because that day was processed with that.

It generates the greatest in dynamic Selection, pushing the shadows and also yanking the Highlights to keep up a perfect equilibrium.

Works equally well with portraits and landscapes. Expose for the highlights and Let this pre-set do the remainder of the
