

Animated abstract illustration with Cinema 4D for Motion and web design

2025-02-10 16:45:17 [label](#) [我要反馈](#) [下载页面](#)

Animated abstract illustration with Cinema 4D: In this course, 3D artist Paul Olusola will show how to use Cinema 4D to create an animated abstract drawing for web or Motion. This class aims to describe the process, and you'll better understand his process and suggestions to help you improve your 3D illustrations.

It is necessary to have a basic understanding of Cinema 4D for this workshop, and it is designed for a skilled person proficient in using Cinema 4D.

The course will be taught the following techniques:

- Adding details to abstract shapes using Illustrator
- Animation of the setup and lighting. This is followed by rendering.

Lessons in This Class:

- Introduction
- Abstract shapes process
- Making details with Adobe Illustrator
- Installation of the project and explanation of lighting
- Illustration explanation, rendering, and animation
