Deep Data Loops 80s Disco: Deep Data Loops presents 10 construction kits capturing the essence of 1980s club music. These kits feature the typical instrumentation of that era, delivering WAV loops of both rhythm and harmonies. All loops are accompanied by MIDI files, providing you with versatile options to customize these royalty-free kits.

The flexibility of this pack allows you to swap out sounds with your preferred digital or analog synthesizer, using the provided MIDI files. Meticulously handcrafted, this product is designed to enhance your production experience and offer maximum entertainment. Whether you choose to combine multiple loops or draw inspiration from individual ones, feel free to add your unique touch to complete your productions.

Product Details:

- 10 Construction Kits (WAV + MIDI)
