Nebula Star Clusters(Brushes, PNG) CM - 7342247: An extensive collection of the star cluster and nebula assets, giving you lots of choice with this product when you make your designs. This bundle will allow you to save time when you are working on a design that requires a stunning dark sky at night or connected to space. space. This bundle includes stamp brushes and colored overlays that allow you to incorporate star clusters or nebulas in your design. Each brush tip is supplied as a PNG file that enables you to add them to other tools. These designs were created using Blender, a free 3D program Blender. All Blender files are available for those who want to know how I made the designs or wish to render them with larger dimensions. A brief tutorial is provided for opening the Blender files and rendering the image in larger dimensions.

Purchase this product and you'll receive 150 Nebula and Star Cluster designs in the following formats(every format includes the entire designs):

- Photoshop Stamp Brushes (.ABR, 2400px)
