Mobile Lightroom Preset COLD BREW (DNG, Zip): Creamy Grey Tones Lightroom Preset. This preset gives an unnatural, pale look by using desaturated grey tones. This allows you to enjoy taking more photographs instead of editing.

These presets will give your pictures the contemporary Instagram look.

This preset is great for bloggers, influencers photographers, lifestyle and portrait photographers.

Keep in mind that there are different presets that work with each photo that is based on various elements such as lighting, white balance, tone, and so on.

- Mobile Preset is great when using your Lightroom Mobile app and works well with the images you shoot on your iPhone or your Android device.
- There is no requirement for the purchase of any Adobe subscription to use these presets. All you have to do is download the LR Mobile App and create an account with Adobe.
- The presets work for both RAW and JPEG files. To get the most optimal results, shoot in RAW or apply the presets for stunning images of excellent quality that are well-lit and excellent quality.
