**The Complete Indesign Course for Architects:** This course is designed for anyone looking to present their architectural designs professionally and stylishly. If you're an architect, freelancer, or employee, the course will guide you to create an impressive portfolio that showcases your talents and character.

Learn how to:

- Create a portfolio layout that is in line with your style and goals.
- Utilize InDesign's tools and features to edit and design images, text, graphics, and tables.
- Organize your portfolio's contents into pages and sections.
- Print and export your portfolio as PDF or as a book.

At the end of this course, you'll have a portfolio of 12 pages that displays two of your work in full. Additionally, you can confidently and with the knowledge to create your portfolio in a snap.

But wait, you can do more! This course is not just about creating a portfolio. It's about learning InDesign to meet all your needs in architecture. This is why I'll be adding additional segments to the course as time goes on and will cover topics like:

- How do you create presentation books, magazines, and files to present your ideas?
- How to create animated presentations and interactive animations for your clients.
- How do you collaborate with architects and other designers by using InDesign?

Stay tuned for more news and updates. This will be the complete InDesign program for architects you've been searching for.

Who is this course to be used for:

- Architects
- Interior Designers
- Students of Architecture
- Design Students
- General Public interested in Design
