**Exotic Refreshment Gabieris Organic Session Vol. 2:** Exotic Refreshment proudly presents "Organic Session vol. 2 - Exotic Samples 070." This is the follow-up to a sample pack created by Greek producer Gabieris, renowned for its releases on labels like Cafe De Anatolia, Lump Records, and Exotic Refreshment LTD.

This sample pack draws strong influences from traditional Balkan and Oriental music, featuring instruments such as the Lute (a Greek traditional handmade stringed instrument) and Saz (known as Sazi in Greek). Additionally, it offers a diverse collection of beats, ethnic percussions, Clavinet V sounds, groovy basslines from ARP Odyssey, and other synthesizers.

Organic Session vol. 2 provides a wealth of oriental Organic House and Afro House samples, along with ritualistic sounds inspired by well-established labels like Sol Selectas, Cosmic Awakenings, Lump Records, Cafe De Anatolia, Exotic Refreshment, Pipe & Pochet, and more.

This package includes 104 loops and samples in WAV format (44.1 kHz, 24-bit), making it perfect for music production across various genres, including Organic House, Downtempo, Afro House, Melodic House and techno, Deep House, Electronica, and more.
