The Portrait Retouch Collection Photoshop Actions: Portrait Retouch Collection Portrait Retouch Collection is the most popular of Photoshop action that retouches and skin retouching. It is suitable for anyone of any age and skin type. This collection creates the perfect skin tone on each edit with unbeatable reliability. The set has taken some of the most intricate editing techniques and made them available to everyone with a click of a button or brush stroke. The most notable features of this collection include those Magic Contouring brushes and our collection of pullback and headshot smoothers. These Magic Contouring brushes will fully shape your subject without the manual task of avoiding and burning. The skin smoothers we use will maintain various levels of texture, depending on the apparent details of your subject's skin.
