**Telerik UI for ASP.NET AJAX** is a set of comprehensive components for building modern, responsive web applications right out of the box. This toolkit allows you to create feature-rich, professional-grade applications that work friction-free in all browsers and devices. Every component, from advanced data grids to rich text editors, is thoughtfully crafted to maximize your productivity and offer the best, most performant applications possible.

contains a suite of data management components, including scheduling, navigation, editing, file uploads, and data visualization. It's easy to customize these components, including built-in themes and skins to match your app's design to your needs. A consistent API across all components will help create a standard development world and free up workflow.

The highest performance, accessibility compliance for Web 2.0 UIs, and how to make it easy to use. That's built to deal with large data sets whilst not slowing down your apps and to support accessibility standards so that your apps are inclusive to all users. From a business application to a feature-rich platform, this suite gives you the tools to bring your idea to life.

## Key Features of **Telerik UI for ASP.NET AJAX** :

- **Extensive Component Library:** Over 120 ASP.NET AJAX components for rapid development, including grids, charts, forms, and navigation tools.
- **Advanced Data Management:** Includes robust tools like the Grid, TreeList, and PivotGrid, featuring sorting, filtering, exporting, and paging for efficiently handling large data sets.
- **Customizable UI Themes:** Choose from built-in skins or create custom designs to match your app's branding and improve user experience.
- **Rich Scheduling Tools:** Components like the Scheduler and GanttChart help you easily manage timelines, events, and tasks.
- **High-Performance Components:** Optimized for handling large datasets and delivering fast, responsive applications.
- **Built-In Accessibility:** Compliant with WAI-ARIA standards to ensure your applications are accessible to all users.

- **Intuitive Editing Tools:** Includes rich text editors, image editors, and color pickers to enable users to interact with your app effortlessly.
- **Powerful Data Visualization:** Components like charts, gauges, and maps make it easy to present data in an engaging and visually appealing way.
- **File Management Tools:** Features like PDF Viewer, File Explorer, and async uploads for seamless document handling.
- **Navigation & Interactivity:** Includes menus, tree views, sliders, and progress bars to create dynamic, user-friendly interfaces.
