40 Instant Overlays

Do you enjoy working with overlays but don't have time to find, open, position, blend, or cover them? Instant Overlays are the answer. Instant Overlays can be the first in their class. Select any overlay you want with a button and boom! The overlay is placed according to a suggested blending mode and transparency. All the tones, the richness of vignetting, directional light, and richness you enjoy, but more efficient and faster than ever! When your overlay settings are set for default blend mode and transparency, these settings can easily be altered to soft light, overlay Screen, Hard Light, or Multiply, just like you would for any regular JPEG overlay!

17 Powerful COMBO Actions

Seventeen different combinations of overlays and effects for quick and powerful transformations. An audition for combos is included to let you see the possibilities!

30 Bonus Actions

27 Bonus Actions for Perfecting, which include sharpening, saturation, contrast, and color toning, provide the finishing details to images. Edit your images from beginning to end with this set! Additionally, four overlay-specific actions let you alter the effect of your instant overlays. The set also comes with two brand-new mask-alternative actions that aid in minimizing the impact of overlays on skin tones while keeping the tone's overall integrity.

Easy and Customizable

The overlays and actions can be stacked entirely and adjustable. You can change their opacity, blend modes, and saturation to adapt to your editing style. These quick action overlays or actions are simple to apply, simple to mask, easy to blend, and irreversible.

What is Illuminations Instant Overlays?

Overlay usually refers to an image or graphic that is added on top of another image or video to enhance or modify it. It could include elements like textures, light effects, patterns, or other visual enhancements. "Illuminations Instant Overlays" could be a
