**Daniel Kordan – Lightroom Masterclass:** Welcome to the Daniel Kordan Lightroom Masterclass!

Unlock over 5 hours of content across 37 videos, where every Lightroom tool is explained, supplemented by ten live samples.

**This Masterclass is perfect for you if:**

- You have a passion for Landscape, Travel, and Wildlife photography.
- You aim to master impressive photo-editing skills, maximizing Lightroom's potential.
- You aspire to learn Daniel's signature techniques applicable to various situations, from nature to cityscapes.
- You wish to develop your unique style efficiently, making this the only LR course you'll ever need.

**What Will You Learn?**

This course guides you in mastering the editing of your images, helping you develop a unique style and optimize your portfolio using Adobe Lightroom Classic. Daniel shares his raw files, showcasing the common challenges photographers face and how to overcome them with his system, covering selection, color grading, and maintaining a distinct mood and style.

Throughout the course, Daniel provides a step-by-step guide and detailed explanations of every tool in Lightroom. Whether a beginner or a professional, you'll discover his entire workflow, including signature softening tricks and color grading techniques.

**The course is divided into five chapters:**

- Storage and Library: Learn how Daniel optimizes his Lightroom Classic workflow for maximum performance, perfect for those who edit on the go.
- Optimizing Storage and Sorting: Discover how to find and recognize the best images efficiently without getting lost.
- Developing Photos: Explore practical examples of photo development without delving too much into theory.
- Local Adjustments and Color Grading: Focus on local adjustments, signature softening effects, gradients, glowing highlights, and color grading to maintain a consistent and outstanding portfolio.
- Exporting Images and Managing Presets: Learn about exporting images, managing presets, and understanding color space.

Enjoy ten walkthrough editing sessions covering diverse scenarios, from night to sunrise, wild animals to cityscapes.

This Masterclass is suitable for beginners with detailed explanations and professionals seeking to adopt Daniel's practical signature workflow step by step. Join today and elevate your Lightroom skills to new heights!
